## **Sunray Publications Metro Cleveland Ohio Area Relocation Data Now Available for Web Use**

PHOENIX August 16, 2006 — Sunray Publications is pleased to announce the availability of its New Database of Metropolitan Cleveland Ohio Relocation information for web licensing use.

In addition to Sunray's Metropolitan Cleveland Area data being available through its CD-ROM Relocation Guides, the data can now also be licensed for use on corporate web sites.

The relocation and community information that is typically found in Sunray's products is available in several formats for use, including:

- RAW Data (for formatting to a corporate web site)
- Full on-line version of Sunray's CD-ROM guides.

The information can be licensed on a per market basis and can be tailored to meet a clients needs. Pricing for the electronic data is based on an annual licensing fee.

This can be a very cost effective addition to a company web site, offering detailed information to relocation clients as well as home buyers visiting a company's web site.

Currently Sunray has several clients already under contract to take advantage of this new and exciting way of presenting detailed community information to relocation clients and home buyers alike.

Call or e-mail Peter Conti or Holly Brownstein for pricing information and for sample web links.

*Anchored by the hallmarks of accuracy and quality, and with more than 25 years in business, Sunray Area Guides consistently meet and surpass the expectations of the nation's leading relocation professionals. For more information on Sunray Publications and our complete product portfolio, contact Peter Conti or Holly Brownstein at 800-947-5161 or via E-mail: peter@movinginformation.com, holly@movinginformation.com.*
